

GORDON

Welcome

Established by Grant Gordon in 2000 Gordon's have earned an enviable reputation for quality of service as a specialist company in a niche sector within our industry. We pride ourselves on continually endeavouring to improve all aspects of our business and strive to be the absolute best at what we do. Reliability, quality of service and professionalism are at the forefront of our considerations and are the primary reasons our clients choose to place repeat business with us.

Our clients know they can place their trust in us to deliver, and that what we say, we do. We pride ourselves on our adaptability and provide Clients with exactly the services they require, even if it sometimes means supplying products or services outside of our core range. Customer satisfaction is paramount to us.

Whilst reliability, quality of service and professionalism are at the forefront of our considerations we also invest wisely to ensure that our machinery, plant equipment and personnel are all of the required calibre to reliably deliver our services time and time again.

G F Gordon (Plant Hire) is based in Purfleet, Essex on the London border just inside the M25 and provides aggregate and spoil removal (muck away) services in London and the surrounding counties. We are FORS accredited and CLOCS Champions. All our vehicles are fitted with weigh loaders, side under run bars, side scan detection equipment, left turn audio warning, real time tracking and all round real time cameras' giving us instant access to see live footage from the vehicle.

Our Services

Aggregate Deliveries

Gordons can supply a wide range of aggregates, both primary and recycled. All aggregates are certified and of the highest quality.

Piling Attendance

Gordon's staff have over 35 years' experience of servicing the piling industry and Gordons have earned the reputation as being one of the leading piling support specialists.

Our services include:

- Leading suppliers to the piling industry
- Piling Attendance
- Plant supply
- Spoil removal
- Piling matt construction to all specifications
- Compaction testing
- Labour & Operatives

Waste Management

With our wealth of experience in Waste Management you can trust us to manage that the right waste streams are being used and disposed of correctly, efficiently, cost effectively and recycled wherever possible. At Gordons we can manage all spoil removal including:

- Soil Sampling
- Soil Testing
- Soil Classification
- Spoil Removal

With correct site management contamination on site can be controlled and reduced to an absolute minimum, giving clients confidence their duty of care is in safe hands.

Plant Hire

Gordon Group provide a professional plant hire service, offering a full range of self-drive or operated plant hire equipment to the building industry in London and the South East of England. We pride ourselves on working with clients understand their exact needs and then provide a reliable, competitively priced plant hire solution.

Bulk Excavation

We have the capability and capacity to take on the largest of contracts. We use our large fleet of 32t tipper lorries to remove the waste material from site which in accordance with our environmental policy, will be sorted, graded and recycled whenever possible.

Groundworks

We provide a full range of Groundwork's and Civil Engineering Services including Enabling Works, Bulk Excavation, Deep Drainage, Roads and utilities, Reinforces Concrete and Shoring. We have a life time of experience in this sector.

Enabling Works

Gordon's are enabling works specialists and have a lifetime of experience to call on.

- Site Investigation including trial holes.
- Working area probing
- Obstruction Removal and disposal
- Redundant Services removal
- Site preparation including haul road and walk way construction
- Working platform construction and testing.

Pre-Contract Advice

We have an experienced management team available for consultation on-site or by phone.

Safety

Here at Gordons we take Health and Safety extremely seriously and are constantly striving to improve and invest heavily in the very latest safety equipment.

All vehicles are:

- Crossrail compliant
- Fitted with all round cameras
- Fully functional telematics
- Weight overload protection system and real time tracking
- All round CCTV
- Forward facing real time cameras
- Tracking system

All our drivers are assessed by our qualified assessors and undergo a half day induction. Their licence and credentials are also checked before they get behind the wheel of any of our vehicles. Our drivers have CPC Vulnerable Road Users and CPC safe urban driving training.

Environmental

Gordons are constantly analysing our carbon footprint and looking into ways to improve; and with our vehicle renewal programme we have the majority of our fleet already changed over to Euro 6 vehicles.

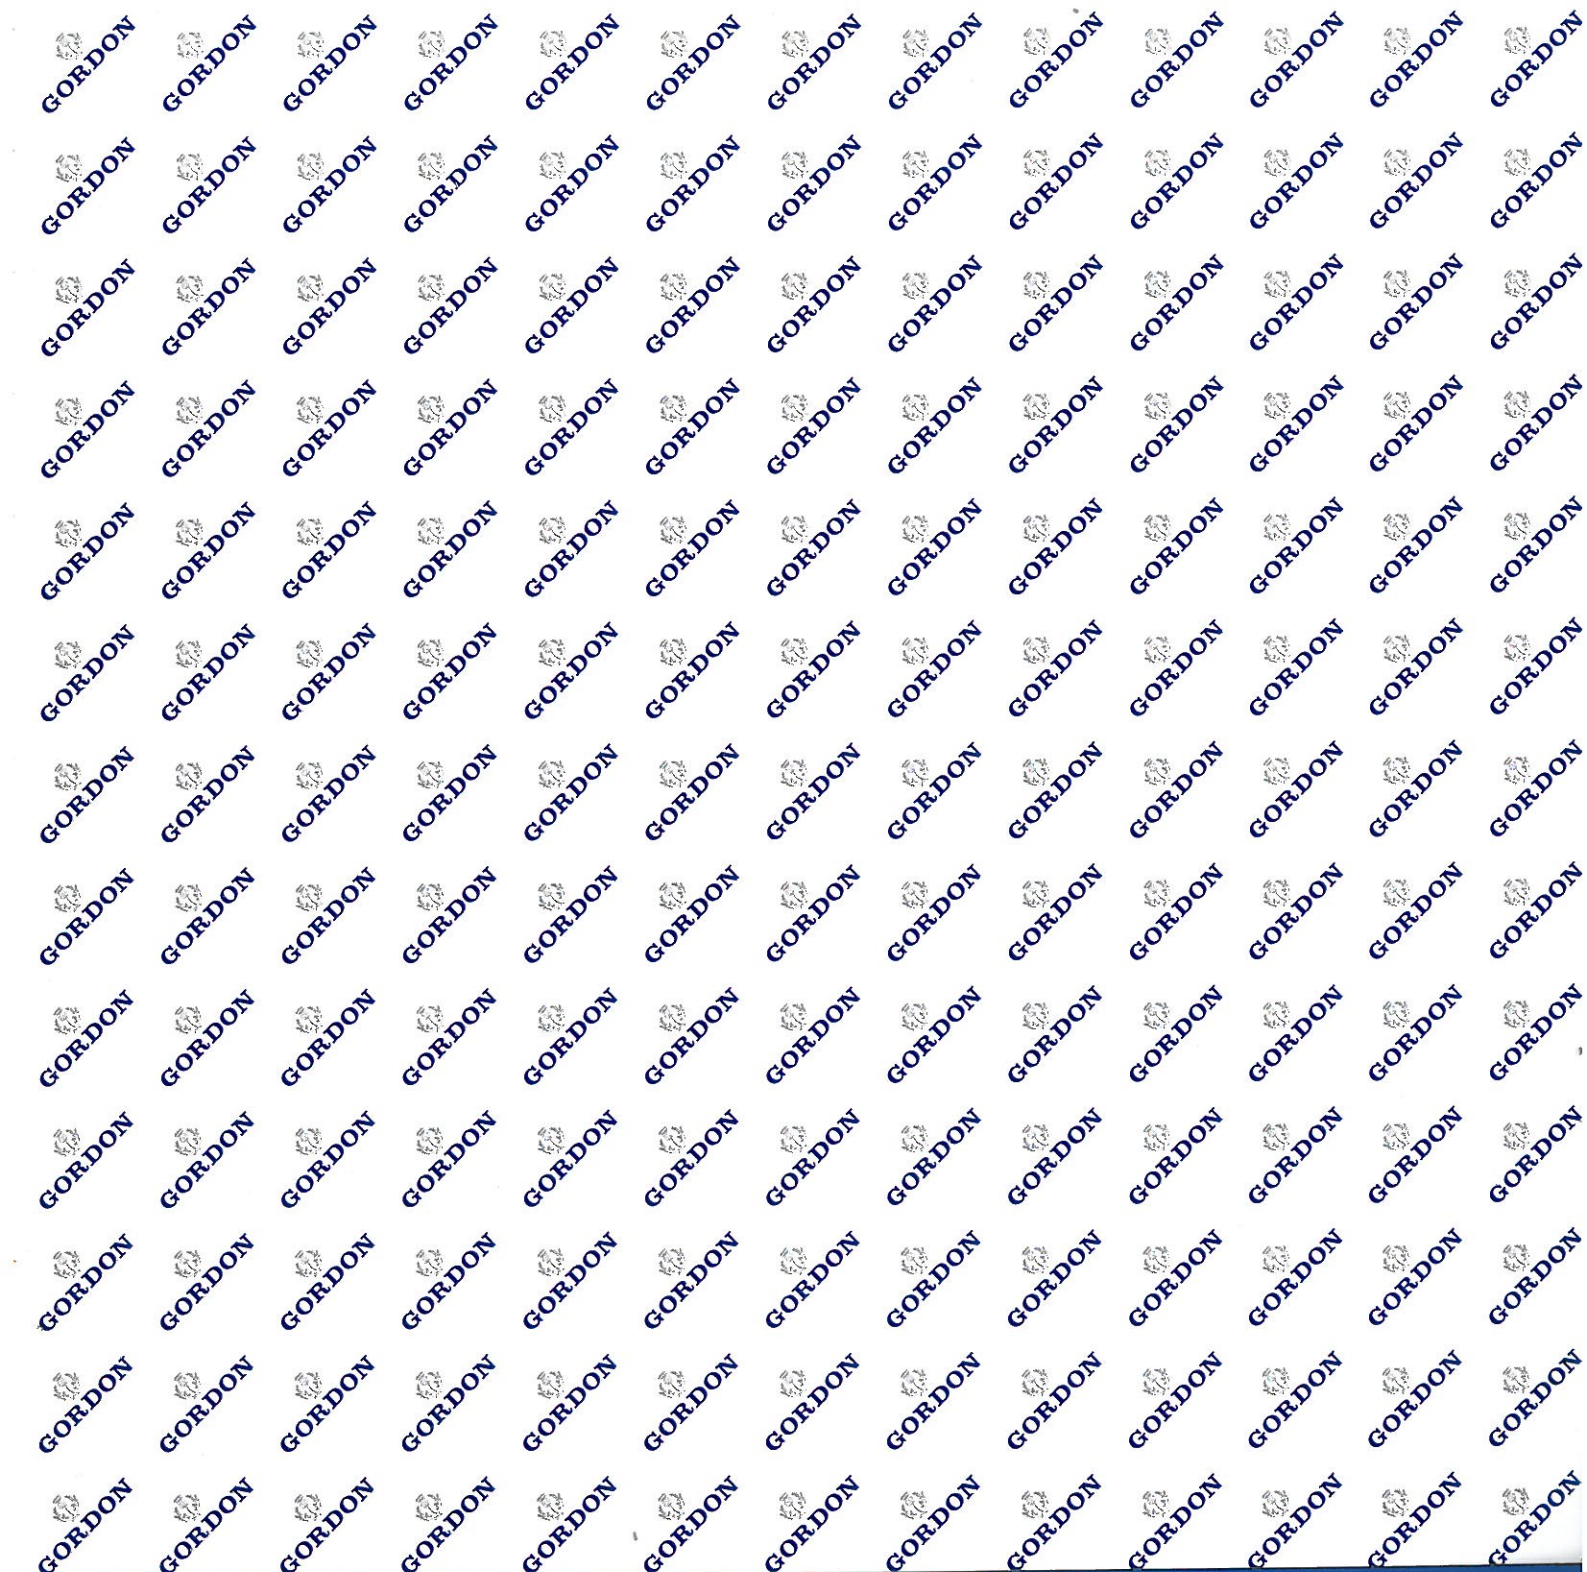

Working closely with our clients we recycle and re-use the absolute maximum of materials removed from the contracts we work on.
